Clarification of News Report

We respond to your query dated 2 May 2017 requesting Nihao Mineral Resources International Inc. (the "Company") to submit a comment and/or clarification on a news article entitled "DENR's Lopez bans open-pit mining" posted in Manila Bulletin (Internet Edition) last 27 April 2017. A part of the article reads as follows:

"Department of Environment and Natural Resources (DENR) Secretary Gina Lopez ordered last Thursday the banning of prospective open pit mines to ensure the protection of the country's environment.

"The DENR issued last Thursday an administrative order 'banning the open pit method of mining for copper, gold, silver and complex orders in the country,' citing records that show 'most of the mining disasters in the country were due to tailings spills associated with open pit mining.'

"As a matter of policy, which is my prerogative as DENR Secretary, we're banning open pit mining prospective, for the following reasons that pit is gonna be there forever and a day, eternally,' she said during a press conference last Thursday.

"Who is gonna take care of that? It's a financial liability to government for life,' she said. 'I am doing this because I have no idea what's going to happen on Tuesday,' she added.

"According to DENR Undersecretary for Legal Affairs and Policy Planning Ipat Luna, the DENR Administrative Order will be effective 15 days after its publication in a newspaper.

"The DENR Secretary has visited a lot of open pit mines and some have been abandoned for 20 years. She realized that we need to do something immediately to stop another damage from happening,' Luna said, citing the Marcopper disaster, where mine tailings spilled into the Boac River in Marinduque in 1996.

"The government has to keep taking care of the environment because we have no other choice otherwise it will threaten the communities,' she said. 'The government has to do something to stop that damage from happening,' she added.

"When asked whether Lopez has the power to issue such order, Luna said she believes so because 'under the mining act she (the Secretary) has the authority to define the parameters of the mining activities in order to ensure that the environment is protected for the future generation.'

x x x x x x x x

The Company currently has no "prospective open-pit mine(s)" and therefore will not be affected by the DENR administrative order "banning the open pit method of mining for copper, gold, silver and complex orders (ores, sic.) in the country". The Company will, of course, comply with all environmental laws, rules and regulations and administrative orders promulgated by appropriate government agencies specially the Department of Environment and Natural Resources (DENR).

Very truly yours,

ATTY. ARSENIO C. CABRERA, JR.
 Corporate Secretary
 NiHAO Mineral Resources International, Inc.
